

Physical Education Programs (Teaching and learning) Workshop The University of Jordan \ School of Sport Science \ Jordan 23. - 25. November 2021

Nach einem Jahr nur virtuellen Veranstaltungen konnte dieses Jahr der persönliche Austausch der Deutsch-Arabischen Transformationspartnerschaft wieder aufgenommen werden. Waren Ende September noch die jordanischen und tunesischen Student:innen in Deutschland, so konnten vom 22.11.2021 bis 25.11.2021 die deutschen und tunesischen Studierenden das jordanische Sportstudium kennenlernen. In einem kultur- und sportträchtigen Programm bekamen die Studierenden Einblicke in die Art des Unterrichtens einzelner Sportarten und wissenschaftlichen Inhalten. So standen zu Beginn viele Einheiten mit unterschiedlichen Sportarten an, die im Anschluss meist zu einem großen Austausch zwischen den Studierenden führten. Die Breite an Sportangeboten bot den internationalen Studierenden die Möglichkeit sich besser kennenzulernen und die kulturellen Unterschiede aufzuarbeiten. Auch der wissenschaftliche Teil kam nicht zu kurz und so konnten die Austauschstudent:innen in unterschiedlichen Vorlesungen auch in die Forschung am Institut einen Einblick erhalten und sich austauschen. Neben dem Workshop hatten die Studierenden zudem die Möglichkeit die Stadt zu erkunden und die umliegenden Sehenswürdigkeiten zu besuchen. Mit einem vollgepackten Rucksack mit Wissen und neuen Erfahrungen, ging es dann wieder zurück in die Heimatländer, mit der Hoffnung sich auch in der nächsten Zeit wieder austauschen zu können.

After a year of only virtual events, the German-Arab Transformation Partnership was able to resume personal exchanges this year. While the Jordanian and Tunisian students were visiting Germany at the end of September, the German and Tunisian students were able to get to know Jordanian sports studies from 22.11.2021 to 25.11.2021. In a programme rich in culture and sports, the students gained insights into the way individual sports are taught and the academic content. At the beginning, there were many units with different types of sports, which usually led to a great exchange between the students afterwards. The wide range of sports offered gave the international students the opportunity to get to know each other better and to work through the cultural differences. The scientific part was not neglected either and the exchange students were able to gain an insight into the research at the institute in various lectures and exchange ideas. In addition to the workshop, the students also had the opportunity to explore the city and visit the attractions in the vicinity. With a fully packed backpack with knowledge and new experiences, they then went back to their home countries, with the hope of being able to exchange ideas again in the near future.

Schedule

Date/Time	08:30 - 9:30	09:30 - 10:30	10:30 - 11:30	11:30 - 12:30	12:30 - 13:30	13:30 - 14:30	14:30 - 16:00	16:00 - 16:30			venue
22.11.2021

Impressions

The practical sessions, led by different lecturers, provided new impressions and experiences.

Along with acquiring new didactical and communication skills, participants sweated, moved and had a lot of fun.

In addition to the workshop, the students also had the opportunity to explore the city and visit the nearby attractions.

Until we meet again!
