

makeIT HAPPEN SERIES

PHYSICAL ACTIVITY IN HEALTHCARE - LET'S GO DIGITAL

Get more
information!

Dr. Bettina Barisch-Fritz
Institut/Firma

Bettina will share her research and personal insights on how digital interventions can support people with dementia in nursing homes, and why sometimes small, overlooked things can make a huge difference in real-life care.

Dementia is one of the greatest public health challenges of our time. Join us to learn how research, technology, and empathy can come together to address it in meaningful ways.
